**Lets Go Freight** saves you time and money by matching your freight with the proper equipment and carrier, comparing multiple carriers for competitive rates, dispatching and tracking shipments, and even aiding you with claims should that become necessary.

By utilizing the highest standard of air, land, and sea transportation, we make sure that your freight gets to its destination in the fastest, most efficient way possible.

Streamline your accounting by paying one single vendor for multiple services. We will call pickup/destination locations to verify information and work to be proactive by communicating with the carrier to prevent delays or possible problems during transit.

WE WORK FOR YOU!! Regardless of where your freight is picking up, call or fax us with the pickup telephone number and billing information and we will take care of all the necessary arrangements.

From generating a completed bill of lading to requesting PODs, we'll make your job easier. No more phone trees or waiting on hold with carriers.

From 500 lbs. to full truckloads, national or international, time sensitive or standard transit, we do it all!

We really care about fostering long-term relationships with our customers and managing each shipment with meticulous care.
